## EDUCATION

2018 - 2023

SHIRAZ UNIVERSITY

- Bachelor of computer engineering

## PERSONAL SKILLS

- Self-made
- Willingness to learn
- Flexibility
- Hardworking
- Teamwork
- Effective Communication
- Critical Thinking

## LANGUAGES

- Persian (Fluent)
- English (Intermediate)
- Arabic (Basic)

## PROFILE

My genuine enthusiasm for technology emerged at an early age. Over the years, I have cultivated a strong understanding of computer science principles and programming logic. I firmly believe that with the right algorithms and code, technology can be leveraged to solve many practical issues of life. It consequently prompted me to pursue specialized training in programming and database systems.

## PROFESSIONAL EXPERIENCE

### Server Infrastructure Management

Codebox.ir 2023 - 2024

- Successfully managed a large-scale server infrastructure, with a focus on overseeing virtualization platforms, including VMware ESXi,
- Expertly installed and configured various operating systems on virtual machines (VMs),
- Demonstrated proficiency in virtualization rules and resource allocation for VMs,
- Collaborated with cross-functional teams to optimize server performance and ensure high availability,
- Implemented robust security measures and continuously monitored system performance,
- Promptly and expeditiously resolved technical issues to ensure uninterrupted workflow.

### Full stack developer

Codebox.ir 2020 - 2023

- Managed end-to-end project development, encompassing requirements analysis, design, implementation, testing, and deployment,
- Designed and implemented responsive user interfaces (UI) using modern web technologies,
- Developed RESTful APIs and integrated them with backend services,
- Experienced with databases, including schema design and data modeling,
- Enforced advanced security protocols and performed consistent code evaluations.

### Web programmer

Codebox.ir 2018 - 2020

- Designed and implemented RESTful APIs to facilitate smooth interaction between frontend and backend infrastructures,
- Developed reliable server-side logic utilizing frameworks such as Mahan (PHP), Express, or Django,
- Engaged directly with databases, focusing on schema design, data modeling, and efficient query optimization.

### Web designer

Codebox.ir 2017 - 2018

- Transformed wireframes and mockups into precise, responsive web designs using HTML, CSS, and JavaScript,
- Worked in conjunction with UX designers to guarantee uninterrupted user experiences,
- Incorporated animations, transitions, and interactive elements to enhance user engagement,
- Conducted cross-browser testing and optimized performance for various devices,
- Leveraged version control systems (e.g., Git) and joined in code reviews.
